Cybersecurity Professional Services

zvelo’s Cybersecurity Experts Help You Protect Your Most Valuable Assets

LEVERAGE ZVELO’S EXPERTS FOR MALWARE ANALYSIS, EXTERNAL THREAT HUNTING, BRAND VULNERABILITY ASSESSMENTS, AND MORE.

Powered by zvelo’s vast network of threat intelligence data and sophisticated AI platform, our Cybersecurity Professional Services team brings deep strategic, operational, and tactical expertise to help you identify and close security gaps within your organization.

Our expert-level team will work closely with your organization to assess and prioritize your cybersecurity needs, and then guide you in implementing a comprehensive, layered defense system to protect your most valuable assets — before, during, or after an attack. From malware analysis, to external threat hunting, to brand vulnerability assessments, and more, zvelo’s Cybersecurity Professional Services team can support your needs and priorities — large, small, short-term, long-term, and everything in between.

Unmatched Data Quality and Veracity

zvelo collects billions of data points across the web through clickstream traffic generated by 600+ million users and endpoint around the world. Combined with feedback from partners, and multiple proprietary data sources, the raw data undergoes extensive validation and is used to produce highly curated data for deeper analysis by zvelo’s sophisticated AI platform. The end result is richly packaged URL classification and threat intelligence data ready for dissemination in the optimal schema, format, and timeline.

CYBERSECURITY PROFESSIONAL SERVICES AT A GLANCE

- Malware Analysis
- External Threat Hunting
- Brand Vulnerability Assessment
- Custom Services Available Based on Cybersecurity Needs

ZVELO CYBERSECURITY EXPERTS CAN HELP YOU:

- Identify and Close Security Gaps
- Develop Comprehensive, Layered Defense Strategies
- Discover Threats and IOCs Faster
- Build Critical Incident Response (IR) Plans
- Gain Visibility into the Complex Ecosystem of the Attack Surface
- Minimize Your Exposures and Vulnerabilities
- Support Cybersecurity Analysis and Integration into Your Environment
- Leverage Superior Quality Curated Cyber Threat Intelligence

01 | INDUSTRY EXPERTISE
Internal experts collaborate with external sources for global cybersecurity strategies.

02 | 99.9% ACTIVEWEB COVERAGE
- Traffic from 600+ million end users
- Third party data sources
- zvelo proprietary data

03 | DATA CURATION
- Extensive verification
- High accuracy
- Low false positive rate

04 | 99.9%+ ACCURACY
AI and Human Supervised Machine Learning assures maximum accuracy for web content classifications.

05 | FLEXIBLE DEPLOYMENT
- API
- SDK
- Data Feeds

06 | FEEDBACK
Continuous feedback loop for real-time, dynamic updates of the ActiveWeb.
**Malware Analysis**

**PROTECT YOUR ENVIRONMENT AGAINST FUTURE ATTACKS**

zvelo’s malware experts will thoroughly investigate your environment to discover hidden attackers actively working to exploit your network, identify latent infections, and analyze the captured payload.

- Identify Indicators of Compromise (IOCs) and malicious threats specific to your organization.
- Receive expert guidance on developing appropriate Incident Response (IR) plans and follow up actions.
- Identify the scope of an incident, and receive expert support throughout the containment and remediation phases.

**External Threat Hunting**

**UNDERSTAND AND MITIGATE YOUR CYBER RISKS**

zvelo’s intelligence-driven approach delivers an extensive analysis of your organization’s exposed assets to provide a comprehensive understanding of your unique attack surface from an adversarial point of view.

- Minimize your digital exposures and vulnerabilities.
- Identify and contain emerging threats before they escalate and result in security breaches.
- Understand the full context of potential threats with key metadata points that map to the threat signals in your environment.

**Brand Vulnerability Assessment**

**PREVENT ATTACKS ON YOUR BRAND THROUGH EARLY DETECTION**

See your brand from an anzvelo’s team will deliver a comprehensive review of your brand and provide a complete exposure assessment report detailing your brand’s greatest risks and vulnerabilities.

- Set up monitoring to mitigate and manage any exposures or vulnerabilities which leave your brand at risk of an attack.
- Identify and contain threats to your brand before they escalate.
- Minimize your digital exposures and vulnerabilities.

**Custom Cybersecurity Services**

**MAKE YOUR ENVIRONMENT SAFER AND MORE SECURE**

zvelo’s Cybersecurity Professional Services experts can deliver any combination of the above services, threat intelligence reporting, and more, based on your unique environment, needs and priorities.
